Web Developer in HTML, CSS & JavaScript

## ABOUT

I'm a frontend web developer with a lifelong passion for the tech industry.

I predominantly work with HTML, CSS and JavaScript, as well as Wordpress with PHP and ACF, but my skillset is always expanding. The most recent library I have begun learning is React js.

I'm an extremely hard-working, diligent and determined individual who has excellent problem solving skills, thinks creatively, works well within a team and thrives on new challenges.

## SKILLS

HTML   
CSS   
SCSS   
Bootstrap   
JavaScript   
Wordpress   
PHP   
Git 

## EXPERIENCE

### **Junior Digital Learning Producer** – 2020 to present | WJEC

- Writing JSON config files for an online learning platform aimed at GCSE and A Level students.
- Version control using Git and Bitbucket.
- HTML, CSS, JavaScript.
- Using Adobe Photoshop, Illustrator and InDesign to create visual assets.

### **Freelance Web Developer** – 2020 to present

- Delivering bespoke websites for clients built using HTML, CSS, JS and a frontend framework such as Bootstrap within an allocated time slot.
- Coding Wordpress websites with PHP and ACF for user versatility.
- Working with wireframes to create pixel-perfect designs.
- Maintenance and troubleshooting, hosting, domains, SSL.

### **Freelance Musician** – 2015 to present

- Set up private guitar teaching business in 2015 and taught over 1000+ individuals.
- Founded and continue to run popular Cardiff-based wedding and function band.
- Web design, marketing and branding for both outlets.
